Re: Notice of File Closure for Mike Jones, Cisco Springs Small Mining Project, S/019/031, Grand County, Utah

Dear Mr. Jones:

On March 29, 2000, Division staff performed a site inspection of the Cisco Springs small mine project area located in Grand County, Utah. This inspection was in response to your request for release of this small mining notice. A copy of the inspection memo is enclosed. We were pleased that the site had been cleaned up considerably since our last site inspection. Although there is still an assortment of debris remaining at this site, due to the close proximity of oil and gas activity, it is difficult to determine how much of the debris, if any, is related to your mining operation. Therefore, we will close the Cisco Springs notice and retire file S/019/031 from our records.

You are hereby released by the Division from further mining or reclamation responsibilities at this site. You will not have to pay the \$100.00 permit fee as recently requested. If you wish to conduct any future mining related activity in this area, you will need to submit a new notice to the appropriate agency(s), pay the Division permit fee, and receive written approval(s), prior to creating any disturbance. Release by the Division does not relieve you of your responsibility to the School and Institutional Trust Lands Administration (SITLA).

If you have any questions or concerns regarding this action, please contact me at (801) 538-5267. Thank you for your time and help in improving this area.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
